ELA	Alien project: Write a speech your alien would give upon arriving on Earth. Be sure to include your alien's name, setting, thoughts, and mission. EXAMPLE: Greetings Earthlings, or as we say on planet Produce, "Saladtations!" I am V-8 and I come in peace to help the human race to improve their health. The obesity rate on your planet is astronomical and I am here to reduce it. If you give me a chance, I will show you the benefits of vegetables and how scrumptious they can be. You can learn to cook healthy meals that everyone in your family will love. Planet Produce is in a galaxy beyond the Milky Way called the Cruciferous System. The climate on my planet is warm and tropical and we get glorious sunshine during the day and much needed rain at night. The landscape of our planet is dotted with farms and all the vegetable beings live in the fields or greenhouses until they are mature enough to move into barns or produce stands. We do not use electricity; rather all of our power comes from the sun and wind. We believe in being kind to the land as it nurtures us and helps us to grow strong. If you could read our mind you would see that we think that vegetables are a misunderstood race. We are delicious and you would see that too if you just gave us a try. Earthlings are lacking in the essential nutrients that vegetables provide because they do not eat enough of them. This is one of the reasons that Earthlings always seem to be so tired. It is obvious to us that your race does not value their health or take care of their bodies and we hope to change that. If you give us a chance, we will demonstrate just how mouth-watering we can be.
